RockWest Technology Group is the largest integrator of photo identification, credential issuance and electronic security in the Southwest. RockWest is a member of the Identification Systems Group (ISG), which provides national sales and on-site service. We offer national resources with local support.

RockWest has sales and service throughout the Southwest and carries an extensive product line including but not limited to: ID capture software, cameras, plastic card printers and other state-of-the-art security and smart card technology. Secure ID's, like those used at the Super Bowl, are created using UV print, holographic overlays, biometrics, and micro-text print. More information can be found on the website at www.RockWestTech.com.

Security at work for you

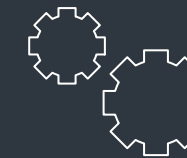

CONNECTING YOUR BUSINESS TO THE SECURITY RESOURCES YOU NEED

RockWest Technology Group is the largest systems integrator in the southwest. We work with you to build a solution that fits your business. Our electronic security systems include options for door access, CCTV, DVR, and integration capabilities for visitor manager systems, time and attendance, logical access, and more.

We also offer FIPS 201 compliant solutions that are completely compatible with a PIV-I card and solution.

RockWest is committed to remaining current on all technology and security trends and advances. Our solutions deliver peace-of-mind for all of our customers.

Talk to an Account Manager today about your security and identity management needs. Each solution is custom built based on your specific needs. Schedule a free walk-through and see how an electronic security solution will fit into your business.

CUSTOM SOLUTIONS

RockWest has System Engineers to design an electronic security system to fit your business and building needs. Each electronic security solution is customized based on a thorough walk-through of your building. Secure one door or multiple doors. You tell us what you need and we will build a solution that is right for you.

INTEGRATION CAPABILITIES

- ACCESS CONTROL
- CCTV
- DVR/ REMOTE VIEWING
- VISITOR MANAGEMENT
- TIME & ATTENDANCE
- SINGLE SIGN ON
- DATA SYNC TOOL
- ACTIVE DIRECTORY PLUG-IN
- EVENT MANAGEMENT
- FIPS 201/PIV-I

flexible solutions for your business needs

PHOTO IDENTIFICATION

At the heart of every access control system is a photo ID. RockWest Technology Group is an authorized Datacard sales and service dealer. We offer printing solutions for low-volume to high-volume with FIPS 201 and PIV-I compliance.

- Issue colorful and secure ID badges.
- Encode MOCA Smart Cards
- Secure information on a magnetic stripe.
- Issue PIV-I cards.

ACCESS CONTROL

Increase security and lower costs with an access control system from RockWest Technology Group. Secure one door or multiple doors based on your needs.

Integrate CCTV and DVR capabilities for maximum crime deterrent and enjoy remote viewing and control of your cameras. Images are stored on a hard drive and not bulky video tapes.

Each access control solution can be integrated into other electronic security systems to track visitors, staff personnel, and contractors.

ELECTRONIC SECURITY: A TOTAL SOLUTION WITH TOTAL SUPPORT.

INTEGRATION

Each access control system can be used with the BadgePass Server solution or another server solution which allows you to integrate all of your systems into a

complete electronic security solution. Each server solution will host a Network Directory, Aux Database, and HR Database. Each database can be integrated to achieve complete electronic security without compromise.

- Issue ID badges with your Identity Management system.
- Integrate your electronic Visitor Manager solution.
- Increase accountability with Time & Attendance solutions.
- Enjoy functional reporting with your access control system.
- Issue and read PIV-I and CAT cards.
- Reduce data errors with the Data Sync Tool.
- Manage training and events with a tracking solution.

REMOTE VIEWING

Add CCTV and a DVR to your electronic security system and view events and threats from a remote location. Know exactly what is happening at any given time and make intelligent decisions about how to handle security threats or employee mishaps.

SOFTWARE INTEGRATION

Now, integrate your access control system with your visitor management system or your time and attendance system. As an integrator, RockWest Technology Group can help you connect all your electronic security systems to create a complete solution.
